

April 2016

### **A NOTE FROM OUR ADMINISTRATOR**

Well it took us awhile to get everything perfect but the day has finally come: WINGS received our Mental Health certificate from the state earlier this month. We have been doing Mental Health work with our clients for quite awhile now, but now everything is official. So what does that mean? Here is a rundown of what you can expect on the Mental Health front when you send someone to WINGS. Clients will receive Diagnostic Assessments (including WHODAS 2.0, GAIN SS, and CAGE-AID) within 10 days of admission if they have not had any done within 30 days of being placed at WINGS. We will be working with our Medical Director to provide all clients with psychotropic medication evaluation, management and education as needed. All of our treatment plans and client progress will be reviewed by a Mental Health professional, plus clients will have the opportunity to meet with a Mental Health professional or supervised Mental Health intern for individual therapy. In addition all clients will attend a weekly 2 hour DBT skills education lecture and Mental Health psycho-education is written into the lecture programming. We have also revamped our Family Education day to include additional education regarding Mental Health. Needless to say we are very excited for the possibilities this opens up in regards to treatment options here at WINGS. We know this is a lot of information so if you have any questions please feel free to give us a call. We look forward to partnering with you in getting your client the help they need.

### **PROGRAM SPOTLIGHT**

## It's Time To Eat

For most of us, food isn't ever a problem, except maybe having too much of it. Our biggest worries about food revolve around what we're going to have for dinner, or whether we can afford to eat out this weekend. For too many of the kids who come through our doors their concerns about food are more mundane. They worry about when their next meal is going to be or whether there will be enough money for groceries next week. That's why at WINGS we take so much pride in our food service. It might seem like a small thing but we think it's one of the building blocks that makes WINGS such a great program. When our clients don't need to worry about food, they can focus more on treatment. We order in fresh ingredients and our in-house cooks, who have over 25 years in the food service industry, prepare everything in our own kitchen. Our clients seem to love our three home-cooked meals, plus the 3 snacks that we provide. Clients consistently give our food high marks on their evaluations with comments like **"The food...it's the BOMB!", "WINGS fried chicken is better than KFC"** and **"The desserts are to die for."** It may seem like a small thing, but we think that by providing great food for our clients we enable them to focus on treatment and add a touch of home to an experience that can often be stressful. Just another way we strive to be the best treatment experience for our clients.

### UPCOMING EVENTS
