

Beverages/Food:

Patients residing at this facility receive regular meals and snacks. Because of past experience in which contraband was hidden in food items brought into the facility, we do not allow outside food or drink. This includes personal water bottles and thermoses.

Once in, Once out:

Once you have entered the client area of the facility for visitation, you will not be able to return to that area if you leave.

If you need to buy something for the client you are visiting, please buy it before you arrive or drop it off with a staff member at a later time or after visiting times are done.

For the safety of our staff and clients:

Visiting:

We welcome and encourage families to come and visit while your family member is at Wings. Our family visitation day is on Sundays from 12:30—3:00 pm

During admission, the family filled out a *Visitor approved list*. Your name must be on this list in order to visit with a client. Children under the age of 12 do not need to be on the approved list.

Due to space limitations, we only allow a maximum of 5 visitors at one time into the client area.

If you are bringing small children, please be considerate of other families visiting and please do not allow small children to be disruptive. Staff has the right to ask you to leave if they are being disruptive to others visiting.

Tobacco/Tobacco Products

Due to having a school within our facility the State law prohibits tobacco or tobacco-related products (such as cigarette lighters, matches) on the facility campus. This law came into effect in January of 2004, and is not related to any other laws or rulings about tobacco that you might have heard about. This means that it is against the law for anyone “patients, visitor or staff “ to be in possession of or use any form of tobacco or tobacco-related products on facility grounds.

If we find tobacco or tobacco-related products among packages or belongings that you are bringing for the person you are visiting, we will confiscate and destroy it without compensation or reimbursement. Depending upon the decision of the patient’s treatment team, your future visiting privileges also could be restricted.

The prohibition applies to all forms of smoking and smokeless tobacco, as well as items associated with tobacco. The treatment team may approve exceptions as part of a culturally or

religiously specific ceremonial practice. Wings is a smoke free facility, there is no smoking allowed **anywhere** on our grounds including in your vehicle. If you must smoke you will need to leave the Wings grounds. For the health of our clients and staff please do not dispose of cigarette butts in our parking lot.

Personal Belongings:

All coats must be left in the lobby prior to entering the client area. Staff will ask you to leave your coat(s) in the lobby prior to entering the client area. Staff may also ask that you empty your pockets to ensure that no contraband is being taken into the client area. This includes but is not limited to: cigarettes, chewing tobacco, lighters, matches, knives and guns.

Please do not bring the following items into the facility:

Handbags/totes and the like, all communication devices such as: Cell Phones, Apple Itouch, Blackberry’s, laptop computers. Please leave these items in your locked vehicle.
